

SCUFFPROOF® MATTE

SPECIALTY VIRGIN OVERLAMINATE FILM

LuxeFilms® ScuffProof® Matte printable laminate film, is the new standard in premium scuff-protection film. Different from every other type of anti-scuff film on the market, **ScuffProof®** utilizes new secret technology that changes the molecular structure of the film surface, through a chemical reaction, to greatly increase the hardness and durability.

ScuffProof® Matte is built on a very stable BOPP film base, and has no “coating” that can scratch off or burnish, like other anti-scuff films. Boasting an extreme hardness level, the film is perfect for a huge range of consumer and high use products that need an ultra-smooth, ultra-protective surface. In addition to durability, **ScuffProof® Matte** is very versatile, allowing the bonding of spot UV coating, glues, and foil stamping with ease.
